

An Eggcellent Adventure With Huntington-Oyster Bay Audubon

Spring is in the air, & it is a great time to learn about oviparous animals- that is, animals that hatch out of eggs! Join us as we learn about these types of animals...birds, insects, reptiles, & others. We will read a book about an egg laying animal, then venture outside for an egg hunt! For ages 3-7, accompanied by a guardian.

To register please call 631-903-5556.

Location: Cold Spring Harbor Library
