

**Huntington-Oyster Bay Audubon
Presents**

A Special Documentary Screening:

GASLAND

PART II

**March 20 2014
7pm
Cold Spring Harbor Library**

Join us tonight as Huntington-Oyster Bay Audubon, together with Food and Water Watch, hosts a screening of **GASLAND Part II**, an explosive follow-up to the Oscar®-nominated film **GASLAND**. **GASLAND PART II**, which premiered at the 2013 Tribeca Film Festival, shows how the stakes have been raised on all sides in one of the most important environmental issues facing our nation today. The film argues that the gas industry's portrayal of natural gas as a clean and safe alternative to oil is a myth and that fracked wells inevitably leak over time, contaminating water and air, hurting families, and endangering the earth's climate with the potent greenhouse gas, methane. In addition the film looks at how the powerful oil and gas industries are in Fox's words "contaminating our democracy". Please join us tonight for a powerful evening as we explore the potentially devastating impacts of fracking. After the film, a representative from Food and Water Watch will lead a discussion about hydraulic fracturing.

Founded in 2005, **Food & Water Watch** is a non-profit organization that advocates for common sense policies that will result in healthy, safe food and access to safe and affordable drinking water.

All meetings are free and open to the public!
