

# Attention Young Artists Help Protect Beach Nesting Birds!

**Sharing our Beaches with Birds  
Poster Workshop for Kids  
March 30  
2pm**

Today we will first learn about **beach nesting birds** with an interactive program. Once we have learned just how interesting, important and imperiled these birds are we will turn artsy and create posters with the help of **renowned local nature artist Lilith Jones**. **Ten of these posters** will then be chosen to be made into signs for **Hobart Beach** in Northport to educate the public and help protect the birds' nesting grounds. This is your chance to make a difference in the lives of birds, while doing something fun at the same time! If your poster is chosen to be made into a sign you will be invited to join us at a **Be a Good Egg Campaign Awareness Day at Hobart Beach!**

For ages 8 –18. Registration is a must as space is limited to 20.
