Winter is fast approaching, and soon our feathered friends are going to be seeking extra food. Today we will learn how to give them a little help! We will start by reading a story about how our wild neighbors prepare for the changing of the seasons. We will then turn crafty, and make our own homemade bird feeders out of pinecones! Afterwards, we will all take a winter walk in the woods! This program is for children ages 3 to 7 years old.

Registration is required! Call 631-903-5556 to register.
